

Educational LeaDo-visit to Kalajoki, Finland

Get to know our world-famous education system and our educational opportunities that are fun, engaging and educating while providing a deep insight into the Finnish culture.

LeaDo Learning Center is a pedagogic innovation that improves the quality of both learning and teaching. It creates a relaxed and rewarding atmosphere in your class. LeaDo's activity control process guides your learning path in support of the student's self-reliance while easing any teacher's workload.

LeaDo's exercise features and physical activities help release excess energy, improve one's health and motor skills, and assist in the student's ability to focus. From a child's viewpoint LeaDo also functions as a game-like environment that gives a fun motivational boost to schoolwork.

LeaDo also includes versatile teacher guidance, student study materials, and other induction and support instructions. LeaDo's organizational platform springs from its color coded learning pockets. The teacher can easily utilize these to organize individual and co-operative learning paths.

With LeaDo you bring to your class:

- Joy and strength to teaching
- A modern pedagogic approach
- A culture of participatory activity
- An working model that encourages enterprise
- Equipment and subject-centric solutions for an active day
- More energy through activities
- Motivation for taking ownership of your learning
- A more relaxed and rewarding atmosphere
